

Stowupland High School Bulletin

Friday 5th June 2026

From Mr Walker, Principal

Principal's Address

The Year 11 students continued sitting their exams this week. Well done to all trying their hardest at English Language, Maths, History, Geography, Health and Social Care, Physics and French this week. In addition, a group of Year 10 students sat their first exam in Statistics on Tuesday.

Yesterday Year 10 Geography students traveled to Felixstowe to complete their GCSE Geography Fieldwork in preparation for their Paper 3 examination. Despite the mixed weather, the trip was a success and will aid them in further research. Full article with photos will be available in the end of the term newsletter.

Jubilant!

This week, Stowupland High School had the privilege of hosting a Photography Artist, Anna Lukala as a part of 2026 Jubilant! Project. 24 students from Year 9 took part in a one day workshop where they've learned about the experimental photography. The finished collaborative piece will be displayed in the Old Fox Yard as part of the Jubilant! Youth Arts Festival in early June - allowing friends, family and the wider public to all see the work produced. Without revealing the finished effect, please see the photographs from the workshop.

SENDIASS Newsletter

Please [click here](#) to read the SENDIASS (Special Educational Needs and Disability Information, Advice and Support Service) Newsletter, including information on annual reviews, EHC plans, local drop-in events, summer sessions and more.

Year 6

We welcomed some of our future students to the school on Tuesday for their enhanced transition afternoon. Our young visitors met some of the school staff, had a tour of school and enjoyed a taster Science session investigating the crispiness of the crisps.

Year 5 Project

On Wednesday we started our brand new project of introducing Year 5 students to high school subjects. We welcomed over 20 students from the local primary schools and offered them to explore either Science, Drama, History or Computing. This 5 week long fun project runs from 4pm-5pm on Wednesdays and there are still spaces available. So if you know someone who has a child in Year 5 who would like to explore the complex idea of aqueducts, have a go at coding, cause some chemical reactions or play fun ice-breaker activities, please refer them to this [LINK](#).

Notifications

Year 10 Revision Guides

Please note the deadline for Year 10 students to order revision guides is Sunday 7th June.

Miss Taylor's NEW Vocal Club

A brand new lunch-time club for those students, who love to sing! Sign up on Arbor.
