

## Design statement

The Design department is made up of four full time specialist teachers and two technicians who teach in a suite of specialist rooms. We are an enthusiastic and supportive department, with a wide range of skills and experience.

The department is well resourced. Food technology enjoys a specialist, well equipped food room within the main school and a 'state-of-the-art' purpose built facility within the recently opened Sixth Form building. The latter has been specified, designed and built to deliver all aspects of food and nutrition, including post-16 teaching.

The Teacher of Food Technology will be responsible for delivering high quality teaching and helping students to develop a broad base of skills through practical, investigational and theoretical work at both Key Stage 3 and 4. Year 10 follow WJEC's Hospitality and Catering Specification Level 2. With the support of the school and Trust, we are very keen to expand the subject into KS5.

Key Stage 3 is taught on a carousel and every student studies Food Technology in Years 7, 8 and 9.

You must be able to demonstrate excellent subject knowledge and communicate this in an enthusiastic and imaginative way in both practical and theory lessons.

### Roles and Responsibilities:

- Teach across all levels and abilities.
- Develop, maintain and stimulate students' curiosity, interest and enjoyment in Food Technology
- Develop students' familiarity, competence and confidence within Food Technology
- Provide challenge for every student and encourage all pupils to achieve their potential in Food Technology
- Share in departmental best practice

This is a fantastic opportunity for an experienced teacher or a colleague new to the profession.
